

Bronwen Huron drives the vision behind the Consensus family of products, bringing interoperability, direct messaging, and streamlined workflows to the continuum of patient care. Bronwen is a dedicated Health IT industry professional with a passion for client enablement, project management, and vision-based leadership. Bronwen recently joined Consensus Cloud Solutions after serving more than 5 years at HIMSS, where she was a Senior Manager for Interoperability Initiatives, managing the HIMSS Interoperability Showcase around the world. In her position at J2, Bronwen brings extensive medical experience to bear on the information needs of the healthcare community, acting as a change agent for clients moving from paper-based data exchange to secure digital information systems.
